JOIN CLIMATE WATCH

THE WA pilot of a Climate Watch Trail kicks off at Piney Lakes Reserve in Winthrop. The Australia-wide Earthwatch initiative involves the recording of more than 100 different species from plants to birds, reptiles and mammals. Volunteers have been invited to record their observations online and help scientists to better understand how climate change is affecting the natural environment. The launch will be held on Saturday from 2pm at the reserve, RSVP essential. Call 9364 0790. Visit www.climatewatch.org.au
