

## Giant Tree Frog or White-lipped Tree Frog

*Litoria infrafrenata*

When to look:

*September to April*

Bright green-olive-pale brown body

Tip: Listen for its call: a loud, harsh barking sound that resembles a strong repeated tapping or “tonk...tonk...tonk” sound

White strip along its lower lip, extending below its ear patch to its arm

### Similar species:

The Green Tree Frog is smaller (10cm long) and lacks the white stripe running along its lower lip.

White belly

Half-webbed fingers

Fully webbed toes
